ANOTHER FIZZLE. "Big Fusionist Rally" at Mount Hope Very Decited Fallare.

The fusionists are meeting with a series of failures as they start out in the cam-paign. The meeting at the Board of Trade hall in this city night before last was the first of the series, and nobody has denied that it was a failure. Even the Commoner which was issued last evening, does not mention it. The fusionists were throwing the blame of it on one another all day yes-terday, and no small amount of bitterness of feeling was the result. The wise fel-lows denounced the leaders of the ratification movement for holding it at all unless they were sure it would be a success. The other fellows said they had every assurance that it would be a success and hence went shead with it. Both finally agreed to state that the farmers did not want to come in, in view of the "big rally" at Mount Hope, and that the citizens of Wichita were too busy to turn out to ratification meetings but would turn out on election day all the same, was generally announced all round that the rally at Mount Hope would be the biggest of the kind ever held in the county outside of Wichita.

Well, the rally has now been hell and it was a flat fallure from every standpoint. Instead of 1,500 people being present there were 115 and they consisted of men, women and children; fully 50 per cent, being women and children. The Haven band was in attendance and more than divided the honors with the orators, Seventy-five per cent, of the crowd came from Reno and Harvey counties and notwithstanding the fact that it strictly a Sedgwick county affair—the ratification of the county ticket—the chairman of the meeting was a citizen of Reno county. THE REUNION. Extensive Preperations Being Sade for Next

Riverside park is now thoroughly cleared of weeds and underbrush and is a joy to look at. It is hard to conceive how it could be put in such excellent shape in such a short time. Two weeks ago a person entering the park could hardly see 50 feet in front of him on account of the weeds, underbrush and hauging limbs; today one can see 600 yards in every direction from the platform, and the view is simply delightful; it is more than that it is romantic. Carpenters are at work fixing benches from tree to tree and when they are done there will be enough seats in the park for at least 6,000 persons. The shade will be simply perfect with the arrangements that are being made, and when the old soldiers arrive here their eyes will be opened to the advantages of Wichita as a reunion point. Under these fine spreading trees they can He down and entertain one another with stories of former days with no danger of being disturbed by the whistling of Con-federate bullets. It is actually delightful to contemplate the nice time that will in-evitably be enjoyed in the midst of such comforts as this place affords. Some stands are being put up aiready, and by Monday morning the place will have the appearance of a little village. The decorations have also been com-

menced in the city. A number of imitation forts are going up and two of these will be on the corner of Main and Donglas. They will be nandsomely decorated with the national colors and G. A. R. designs. Many handsome displays of private decoratins will also be made. A FACTORY SECURED.

A deal was made yesterday by which Stabl & Cathers of Cherryvale secured a lease on the overall factory on North Topeka avenue which they will use as a cigar factory until they are fortunate enough to get a three story building which, as a matter of fact, they require and must have at no distant day. This is a two-story building with a floor capacity of about 5,000 quare feet. Next Monday two car loads of goods will be here and on the Monday following the factory will be in running order with between forty and fifty-five bands at work. The gentlemen who com pose the firm expect to make 1,000,000 cigars this year and 2,000,000 next year. They expect to bring twenty-five or thirty cigarmakers with them and will employ the balance here. They are very pleased with their change of location as they now fully realize that Wichita is the commercial center of the state.

PUT ON A LITTLE SHINE.

The city is in its wanted healthy and cleanly condition and there is no demand for an extra effort to improve either as far as the comfort of the community is concerned. It is suggested though, that in view of the great event of next week that will bring thousands of visitors to the city and during which everybody is expected to keep open bouse, the citizens should spruce up their premises and apply such embellishments as would add to the general attractiveness of the city, not only at home but in every place of business in the city. Our guests will be with us for a week and will be unanimously voted the freedom of the city, and everybody should vie in rendering their stay pleasurable to the full. It will be the first visit to Wichits with many, and with some it will be the last. Let's do all we can to make the sejourn of all the most delightful outing ing Kansas City, Missouri Pacific train, of their eventful lives.
